

Position: Medical Doctor

No. of position: 3

Job Location: Palghar, Maharashtra

About the position:

- Foundation offers a wonderful opportunity to work for patients affected with Non-Communicable Disorders in Palghar district.
- You will be treating underserved population in Palghar district through the state of the art Mobile Medical Vans functional at Palghar.
- You will receive mentorship and training from eminent Cardiologists and Pulmonologists and this will help to gain hands-on experience of dealing with patients at grassroots level.

Job responsibilities:

- Apply medical knowledge, skills for diagnosis, and prevention of complications. Carry out outpatient consultations, prescribing the necessary treatment respecting medical protocols.
- Keep the patient and/or his/her family informed about the illness and provide appropriate explanations about the treatment to follow, checking they have understood.
- Ensure that all Medical records of each patient are maintained as per standard protocols.
- Ensure ongoing training of the medical/paramedical multidisciplinary team in order to optimize the quality of care.
- Knows and ensures all medical protocols are followed and implemented, checking universal precautions are followed at all times and reducing biohazard risks and improving infection control. Ensures professional confidentiality is respected.
- Supporting the other members of the medical team (e.g. District Program Manager, Block Coordinator, Nurses, Pharmacist etc.) if needed at the Mobile Medical Vans.
- Referring patients, if indicated.
- Participate in regular internal and external meetings.

Work details: This is a full-time position and 8 hours of daily work will be expected from the Medical Officer.

Reporting to: District Program Manager

Education:

Essential: MBBS degree with full & valid registration from Medical Council of India or State Medical Councils

Desirable: Diploma in Medicine

Experience: Preferable 1-year experience as a Medical Officer; prior experience in conducting Mobile camps

Languages: Hindi and English essential

Knowledge: Essential computer literacy (Word, Excel & Powerpoint)

About Foundation and Lives program:

The Lives Program also known as the Desh Bandhu Jan Aarogya Seva was launched in 2022 to address the rising prevalence of Non-Communicable Diseases (NCDs) through a comprehensive strategy targeting underlying causes. The Lives program focuses on enriching the quality of life within the communities and ensuring better access to healthcare services. A strategic engagement aimed at strengthening health systems to address Chronic Obstructive Pulmonary Disease (COPD), Cardiovascular Diseases (CVDs), and Diabetes stands as an irreplaceable building block of our Lives strategy.
